

cleartax.ai

Built for Modern Finance Leaders

The Agentic AI Platform for Finance & Accounting

Purpose built agents that connect your fragmented finance & business systems for audit-ready answers and workflows.

cleartax.ai in action

Instant Answers on your Finance & Business Data

Get real-time answers across your finance and business data that you can drill down into. Create board-ready insights, exec summaries, trend analysis, and strategic recommendations in seconds.

Revenue Automation

Automate your manual, and complex revenue recognition workflows with AI precision. Track ARR, MRR, accruals and deferred revenue with real-time accuracy and full audit trails.

AI Transaction Matching & Reconciliations

Intelligent matching algorithms that learn your patterns. Automatically reconcile bank transactions, invoices, and payments with 99%+ accuracy and exception handling.

Automate Journal Entries

AI-powered journal entry creation that understands your chart of accounts. Automatically categorize, create, and post entries with proper approvals and documentation.

Monthly Close on Autopilot

Accelerate your month-end close with automated checklists, real-time status tracking, and intelligent task sequencing. Reduce close time by 40% while improving accuracy.

Transaction Monitoring & Flux Analysis

Real-time anomaly detection and variance analysis across all accounts. Get instant alerts on unusual patterns and deep-dive into flux drivers with AI-powered explanations.

Use cases for the CFO
