Up to 80%

reduction in manual processing effort

Faster Payments

- Faster approvals
- Increased visibility into cash flow

100s

of admin hours saved annually

Measuring the Impact of E-Invoicing

95%

Compliance Accuracy

70%

Faster Processing

60%

Reduction in Manual Work

A Typical E-Invoicing Rollout

Four phases take most organizations from first assessment to a fully live, monitored rollout.

🕒 Typical implementation takes approximately 6–12 weeks, depending on ERP complexity.

Why Businesses Should Act Now

Governments continue expanding e-invoicing mandates worldwide.
Organizations that modernize now benefit from:

- ✓ Lower operational costs
- ✓ Improved tax compliance
- ✓ Faster payment cycles
- ✓ Better supplier relationships
- ✓ Future-ready finance operations

Prepare your organization before regulatory deadlines arrive.
